Project

East Port Said Sea Water RO Plant

Port Said is a city that lies in north east Egypt extending about 30 kilometers along the coast of the Mediterranean Sea, north of the Suez Canal. With an approximate population of 610,000, it is the fifth-largest city in Egypt. The city was established in 1859 during the building of the Suez Canal.

Lamination

DELIVERING

Water Industrial

The New East Port Said Plant is designed to fulfil the demand for water for various purposes, including drinking, agricultural, and industrial activities.

Future Pipe Industries provided pipes and fittings, Engineering, Site Technical Assistant, Project Management, QA/QC documentations of GRP Piping.

“

The project, built with environmental considerations, would meet the drinking water needs of a population of nearly one million. The desalination plant will have a capacity of 150,000 cubic metres per day, with plans to be expanded in the future to a capacity of 250,000 cubic metres per day.
