

Case Study
OIL AND GAS

Location
Kingdom of Saudi Arabia

End User
Saudi Aramco

Year
2017-2020

Project

SHEDGUM Stores – Saudi Aramco

Shedgum is strategically located between Abqaiia and Udhailiyah in the Eastern Province which is home to a large percentage of Saudi Arabia's oil production.

What We Delivered

DIAMETER

6" and 8"

PRESSURE

1,350 PSI

METERS

648 km

JOINTS

Threaded
Connections

DELIVERING

Crude Oil
Transmission Lines

Our scope includes production and delivery of 648 Kilometres of 6" and 8" Flowstrong® Pipes.

The inventory of Flowstrong® pipes will be available to fulfil demand against the increasing number of projects Saudi Aramco are driving. The pipes will be distributed and installed to various projects, specifically crude oil transmission lines, across the Eastern Region as required.

Future Pipe Industries installed a major part of the pipe, the balance is stocked at Saudi Aramco warehouse in Shedgum for later replacement jobs.

“

Future Pipe Industries works to deliver materials to meet Saudi Aramco specifications and high-quality standards to support them in sustaining the most reliable oil and gas facilities in the world as well as protecting their valuable supply chain.
